Madeleine Phantasms Masterlist

Put together by UVPartyBomb (Mark)

Here’s the copy of the masterlist doc that we removed a while back, The characters made by Livingifitsnot (Spidey) DO NOT belong to me (if she wishes for them to be removed then we shall) and most of the art isn’t ours other than the advisors we designed.

We do not own the creatorship of this series nor how it was originally written, merely continuing it in our own words without changing the designs (For the most part).

We do not support Pom in any way with his recent behaviors and the like, this is just us picking up the series that didn’t deserve to be dropped as it did.
